## What are the key risks that are specific to the Issuer?

**Risks related to the Issuer's financial situation:** Risk that HVB Group will not be able to meet its payment obligations on time or in full or to obtain sufficient liquidity when required as well as that liquidity will only be available at higher interest rates, and the risk that the bank will only be able to liquidate assets on the market at a discount could create liquidity problems for HVB Group and thus could result in a limited ability to fund its activities and meet its minimum liquidity requirements.

**Risks related to the Issuer's specific business activities:** Risks arising from the normal business activities of HVB Group, which involve credit risk in the lending business, market risk in the trading business as well as risks from other business activities such as the real estate business activities of HVB Group could have an adverse impact on HVB Group's operating results, its assets and its financial situation.

**General risks related to the Issuer's business operations:** Risks from inadequate or failed internal processes, people and systems or from external events, risks caused by adverse reactions of stakeholders due to their altered perception of the bank, risks from unexpected adverse changes in the future earnings of the bank as well as risks from concentrations of risk and/or earnings positions could result in financial losses, a downgrade of HVB's rating and an increase in the business risk of the HVB Group.

**Legal and regulatory risk:** Changes of the regulatory and statutory environment of HVB could result in higher capital costs and a rise of costs for the implementation of regulatory requirements. In cases of non-compliance with regulatory requirements, (tax) laws, regulations, statutory provisions, agreements, mandatory practices and ethical standards, the public perception of HVB Group as well as its earnings and financial situation could be negatively affected.

**Strategic and macroeconomic risk:** Risks resulting from management either not recognising early enough or not correctly assessing significant developments or trends in the bank's environment and risks arising from negative economic developments in Germany and on the international financial and capital markets could have a negative effect on the assets, liabilities, financial position and profit or loss of HVB Group. In particular, the geopolitical tensions, rising protectionism, less dynamic growth in China and a slowdown in the German real estate market could lead to a more severe slowdown in the German economy. In addition, if any of the aforementioned risks materialises, turbulence could occur on financial and capital markets.

## Section 3 – Key information on the Securities

### What are the main features of the Securities?

#### Product Type, Underlying and form of the Securities

*Product Type:* Reverse Convertible Securities with cash settlement or physical delivery (Non-Quanto)

*Underlying:* Invesco Global Consumer Trends Fund A (EUR Hgd)-Acc (ISIN: LU1590492135) – managed by Invesco Management SA

The Securities are issued as bearer bonds within the meaning of § 793 German Civil Code (*Bürgerliches Gesetzbuch*). The Securities will be represented by a global note and are freely transferable. The international securities identification number (ISIN) of the Securities is set out in Section 1.

#### Issuance and Term

The Securities will be issued on 18.02.2025 in Euro (EUR) (the "**Specified Currency**"), as up to 5,000 Certificates. The Securities have a definite term.

#### Additional Unconditional Amount (I)

An Additional Unconditional Amount (I) will be paid on the Additional Unconditional Amount Payment Date (I).

I	Additional Unconditional Amount (I)	Additional Unconditional Amount Payment Date (I)
1	EUR 70.63	18.03.2026

#### Redemption of the Securities

The Securities will be redeemed on the Final Payment Date as follows:

- (A) The Final Reference Price is equal to or greater than the Strike. The Security Holder receives the Redemption Amount in the Specified Currency which is equal to the Calculation Amount.
- (B) The Final Reference Price is lower than the Strike. The Security Holder receives delivery of the Underlying in a quantity expressed by the Ratio per Security. If the Ratio leads to a fraction of the Underlying, a cash amount expressed in the Specified Currency is paid instead.

#### **Additional definitions and product terms**

Calculation Amount means EUR 1,000.00.

Final Reference Price means the Reference Price of the Underlying determined on the Final Observation Date.

Initial Reference Price means the Reference Price of the Underlying determined on the Initial Observation Date.

Ratio means the quotient of the Calculation Amount divided by the Strike.

Strike means the product of the Strike Level and the Initial Reference Price.

Reference Price	Strike Level	Initial Observation Date	Final Observation Date	Final Payment Date
Net Asset Value per Fund Share	100%	14.02.2025	11.03.2026	18.03.2026

**Extraordinary termination right:** The Issuer has the right to extraordinary terminate the Securities at the fair market value of the Securities upon the occurrence of certain Call Events (for example, a Fund Replacement Event (for example a material change with respect to the risk profile of the Fund Shares or the Fund) occurred and no suitable Replacement Underlying is available or can be determined).

**Adjustment right:** The Terms and Conditions of the Securities may be adjusted by the Calculation Agent if an Adjustment Event (for example, the reduction of the number of Fund Shares of a shareholder in the Fund for reasons outside the control of the shareholder) or Fund Replacement Event (for example, a material change with respect to the risk profile of the Fund Shares or the Fund) occurs.

**Status of the Securities:** The Securities constitute direct, unconditional and unsecured obligations of the Issuer. The Securities rank *pari passu* with all other unsecured and unsubordinated present and future obligations of the Issuer. Exception: obligations which have a preference or subordination under the law.

#### **Where will the Securities be traded?**

No application for the Securities to be admitted to trading on a regulated market has been made and no such application is intended. However, application to listing will be made with effect from 18.02.2025 on the following multilateral trading facilities (MTF): Freiverkehr der Börse Stuttgart (*Regulated Unofficial Market of the Stuttgart Stock Exchange*)

#### **What are the key risks that are specific to the Securities?**

The specific risk factors related to the Securities, which in the view of the Issuer are material, are described below:

**Risk related to the rank and characteristic of the Securities in the case of a failure of the Issuer:** The Security Holders bear the risk of the insolvency of the Issuer. Moreover, Security Holders may become subject to resolution measures in relation to the Issuer if the Issuer is failing or likely to fail.

**Specific Risks related to the payment profile of the Securities:** There is the particular risk that the price of the Underlying falls and consequently the Security Holder will suffer a significant loss of his invested capital. A total loss is possible. Falling prices of the Underlying will have a negative impact on the Security Holder, especially if the price falls below the Strike.

**Risks relating to Securities with physical delivery:** The risk of price losses of the Underlying does not end with its delivery but only with its disposal by the Security Holder. There is no automatic disposal of the delivered quantity of the Underlying.

**Risks arising from the Terms and Conditions of the Securities:** The Security Holders bear a risk of loss if the Securities are terminated by the Issuer. The Securities will then be redeemed at their fair market value of the Securities. This may be lower than the amount that the Security Holder would have received if there had been no extraordinary termination of

the Securities. In addition, Security Holders bear a reinvestment risk. Moreover, the Security Holders bear a risk of loss if an adjustment of the Terms and Conditions is made or if a market disruption occurs.

**Risks related to the investment in, the holding and selling of the Securities:** The Security Holders bear the risk that the market price of the Securities may be subject to severe fluctuations during the term of Securities and that the Security Holder is not able to purchase or to sell the Securities at a specific time or for a specific price.

**Risks related to Fund Shares as Underlying:** The Securities are associated with similar risks for the Security Holders as in case of a direct investment in the fund shares specified as Underlying. In particular, the investment activity of the investment fund can have a material adverse effect on the price of the relevant fund shares for the Security Holder.
