Redemption, Automatic Early Redemption

- (1) *Redemption:* The Securities shall be redeemed by payment of the Redemption Amount on the Final Payment Date pursuant to the provisions of § 6 of the Special Conditions.
- (2) *Automatic Early Redemption:* If an Early Redemption Event has occurred the Securities will be automatically early redeemed on the immediately following Early Payment Date (k) by payment of the respective Early Redemption Amount (k) on the respective Early Payment Date (k) pursuant to the provisions of § 6 of the Special Conditions.

§ 4

Redemption Amount, Early Redemption Amount

- (1) *Redemption Amount:* The Redemption Amount corresponds to an amount in the Specified Currency calculated or specified by the Calculation Agent as follows:
 - If no Barrier Event has occurred the Redemption Amount corresponds to the Maximum Amount.
 - If a Barrier Event has occurred, the Redemption Amount is specified according to the following formula:
$$\text{Redemption Amount} = \text{Nominal Amount} \times R(\text{final}) / \text{Strike}.$$
However, in this case the Redemption Amount is not greater than the Nominal Amount.
- (2) *Early Redemption Amount:* The Early Redemption Amount (k) for an Early Payment Date (k) is specified in § 1 of the Product and Underlying Data.

§ 5

Issuer's Extraordinary Call Right

Issuer's extraordinary call right: Upon the occurrence of a Call Event the Issuer may call the Securities extraordinarily by giving notice pursuant to § 6 of the General Conditions and redeem the Securities at their Cancellation Amount. Such call shall become effective at the time indicated in the notice. The application of §§ 313, 314 BGB remains reserved.

The "**Cancellation Amount**" shall be the fair market value of the Securities as of the first Banking Day before the extraordinary call becomes effective, determined by the Calculation Agent in its reasonable discretion (§ 315 et seq. BGB) under then prevailing circumstances.

The determination of the fair market value is based on the economic equivalent of the Issuer's payment obligations to the Security Holders consistent with the provisions for the redemption profile, interest or other additional amounts of the Securities that would otherwise be due after the day on which the extraordinary call becomes effective and which is adjusted for taking into consideration the following parameters as of the first Banking Day before the extraordinary call becomes effective: the price of the Underlying, the remaining time to maturity, the estimated

volatility, the expected dividends (if applicable), the current market interest rate as well as the interest spread associated with the credit default risk of the Issuer and any other relevant market parameter that can influence the value of the Securities. The Cancellation Amount will be paid within five Banking Days following the date as of which the extraordinary call becomes effective, or at the date specified in the above mentioned notice, as the case may be, pursuant to the provisions of § 6 of the Special Conditions.

§ 6

Payments

- (1) *Rounding:* The amounts payable under these Terms and Conditions shall be rounded up or down to the nearest EUR 0.01, with EUR 0.005 being rounded upwards.
- (2) *Business day convention:* If the due date for any payment under the Securities (the "**Payment Date**") is not a Banking Day then the Security Holders shall not be entitled to payment until the next following Banking Day. The Security Holders shall not be entitled to further interest or other payments in respect of such delay.
- (3) *Manner of payment, discharge:* All payments shall be made to the Principal Paying Agent. The Principal Paying Agent shall pay the amounts due to the Clearing System to be credited to the respective accounts of the depository banks and to be transferred to the Security Holders. The payment to the Clearing System shall discharge the Issuer from its obligations under the Securities in the amount of such a payment.
- (4) *Interest of default:* If the Issuer fails to make payments under the Securities when due, the amount due shall bear interest on the basis of the default interest rate established by law. Such accrual of interest starts on the day following the due date of that payment (including) and ends on the effective date of the payment (including).

§ 7

Market Disruptions

- (1) *Postponement:* Notwithstanding the provisions of § 8 of the Special Conditions, if a Market Disruption Event occurs on an Observation Date, the respective Observation Date will be postponed to the next following Calculation Date on which the Market Disruption Event no longer exists.

Any Payment Date relating to such Observation Date shall be postponed if applicable. Interest shall not be payable due to such postponement.

- (2) *Discretionary valuation:* Should the Market Disruption Event continue for more than 8 consecutive Banking Days the Calculation Agent shall determine in its reasonable discretion (§ 315 et seq. BGB) the respective Reference Price required for the calculations or, respectively, specifications described in the Terms and Conditions of these Securities. Such Reference Price shall be determined in accordance with prevailing market conditions at 10:00 a.m. (Munich local time) on this 9th Banking Day, taking into account the financial position of the Security Holders.

If within these 8 Banking Days traded Underlying Linked Derivatives expire and are settled on the Determining Futures Exchange, the settlement price established by the Determining Futures Exchange for the there traded Underlying Linked Derivatives will be taken into account in order to conduct the calculations or, respectively, specifications described in the Terms and Conditions of

these Securities. In that case, the expiration date for those Underlying Linked Derivatives is the respective Observation Date.

§ 8

Adjustments, Type of Adjustment, New Index Sponsor and New Index Calculation Agent, Replacement Specification, Notifications, Legal Provisions

- (1) *Adjustments:* If an Adjustment Event occurs the Calculation Agent is authorised to adjust the Terms and Conditions of these Securities (the "**Adjustment**"); whether an Adjustment is to be made shall be determined by the Calculation Agent in its reasonable discretion (§ 315 et seq. BGB).

The goal of the Adjustment is to appropriately consider the economic impact of the circumstance that triggered the Adjustment Event, so that the economic characteristics of the Securities remain as unchanged as possible, taking into account the interests of the Security Holders as well as the Issuer ("**Adjustment Goal**"). A subsequent adverse change of the value of the Securities resulting from the Adjustment cannot be ruled out.

The Calculation Agent determines all Adjustments according to this § 8 in its reasonable discretion (§ 315 et seq. BGB), taking into account the Adjustment Goal. It will only make an Adjustment if such Adjustment is reasonable for the Security Holders as well as for the Issuer; whether this is the case shall be determined by the Calculation Agent in its reasonable discretion (§ 315 et seq. BGB).

- (2) *Type of Adjustment:* In the context of an Adjustment the Calculation Agent may, in particular and in accordance with paragraph (1) above, replace the Underlying with a replacement underlying and if necessary redefine the Product and Underlying Data. As a "**Replacement Underlying**" another index can be considered which is comparable to the original index with respect to the represented constituents, the consideration of returns and distributions of the constituents included in the Index (e.g. dividends) and, if applicable, fees and costs included in the Index.

If the Calculation Agent designates a Replacement Underlying, from the Adjustment Date on (as defined in paragraph 5 below), every reference to Underlying in these Terms and Conditions shall be a reference to the Replacement Underlying, unless the context requires otherwise.

- (3) *New Index Sponsor and New Index Calculation Agent:* If the Underlying is no longer determined by the Index Sponsor but rather by another person, company or institution (the "**New Index Sponsor**"), then all calculations or, respectively, specifications described in these Terms and Conditions of these Securities shall occur on the basis of the Underlying as determined by the New Index Sponsor. In this case, any reference to the replaced Index Sponsor in these Terms and Conditions of these Securities shall be deemed to refer to the New Index Sponsor. If the Underlying is no longer calculated by the Index Calculation Agent but rather by another person, company or institution (the "**New Index Calculation Agent**"), then all calculations or, respectively, specifications described in these Terms and Conditions of these Securities shall occur on the basis of the Underlying as calculated by the New Index Calculation Agent. In this case, any reference to the replaced Index Calculation Agent in these Terms and Conditions of these Securities shall be deemed to refer to the New Index Calculation Agent.
- (4) *Replacement Specification:* If a price of the Underlying published by the Index Sponsor or the Index Calculation Agent, as the case may be, pursuant to these Terms and Conditions of these Securities is subsequently corrected and the correction (the "**Corrected Value**") will be published by the Index Sponsor or the Index Calculation Agent, as the case may be, after the original

publication, but still within one Settlement Cycle, then the Calculation Agent will notify the Issuer of the Corrected Value without undue delay and shall again specify and publish pursuant to § 6 of the General Conditions the relevant value by using the Corrected Value (the "**Replacement Specification**").

- (5) *Notifications:* All Adjustments as described in this § 8 and undertaken by the Calculation Agent as well as the designation of the time of the first application (the "**Adjustment Date**") take place by notification of the Securities Holder according to § 6 of the General Conditions. Hereby reference is made to the aforementioned notifications.
- (6) The application of §§ 313, 314 BGB remains reserved.

Had the aforementioned article not been applied, the leverage ratio of HVB Group as at 31 December 2020 would amount to 4.4% (in accordance with approved consolidated financial statements).

What are the key risks that are specific to the Issuer?

Risks related to the Issuer's financial situation: Risk that HVB Group will not be able to meet its payment obligations on time or in full or to obtain sufficient liquidity when required as well as that liquidity will only be available at higher interest rates, and the risk that the bank will only be able to liquidate assets on the market at a discount could create liquidity problems for HVB Group and thus could result in a limited ability to fund its activities and meet its minimum liquidity requirements.

Risks related to the Issuer's specific business activities: Risks arising from the normal business activities of HVB Group, which involve credit risk in the lending business, market risk in the trading business as well as risks from other business activities such as the real estate business activities of HVB Group could have an adverse impact on HVB Group's operating results, its assets and its financial situation.

General risks related to the Issuer's business operations: Risks from inadequate or failed internal processes, systems and people or from external events, risks caused by adverse reactions of stakeholders due to their altered perception of the bank, risks from unexpected adverse changes in the future earnings of the bank as well as risks from concentrations of risk and/or earnings positions could result in financial losses, a downgrade of the bank's rating and an increase in the business risk of the HVB Group.

Legal and regulatory risk: Changes of the regulatory and statutory environment of HVB could result in higher capital costs and a rise of costs for the implementation of regulatory requirements. In cases of non-compliance with regulatory requirements, (tax) laws, regulations, statutory provisions, agreements, mandatory practices and ethical standards, the public perception of HVB Group as well as its earnings and financial situation could be negatively affected.

Strategic and macroeconomic risk: Risks resulting from management either not recognising early enough or not correctly assessing significant developments or trends in the bank's environment and risks arising from negative economic developments in Germany and on the international financial and capital markets could have a negative effect on the assets, liabilities, financial position and profit or loss of HVB Group. It can be expected that the global spread of the coronavirus will weigh on global economic growth in the first half of the year. It is also possible that the burden will last longer depending on how the pandemic progresses.

- (B) A Barrier Event has occurred. The Security Holder receives the Redemption Amount in the Specified Currency which is calculated by multiplying the Nominal Amount by a quotient. The quotient is formed by dividing the Final Reference Price by the Strike.

If a Barrier Event has occurred, the Redemption Amount will not be greater than the Nominal Amount.

Additional definitions and product terms

Barrier Event means that the Final Reference Price is lower than the Barrier.

Final Reference Price means the Reference Price of the Underlying determined on the Final Observation Date.

Initial Reference Price means the Reference Price of the Underlying determined on the Initial Observation Date.

Strike means the product of the Strike Level and the Initial Reference Price.

Reference Price	Barrier Level	Strike Level	Maximum Amount	Initial Observation Date	Final Observation Date	Final Payment Date

Extraordinary termination right: The Issuer has the right to extraordinary terminate the Securities at the fair market value of the Securities upon the occurrence of certain Call Events (for example, the calculation of the Underlying is discontinued and no suitable replacement underlying is available).

Adjustment right: The Terms and Conditions of the Securities may be adjusted by the Calculation Agent if an Adjustment Event occurs (for example, a change to the relevant index concept).

Status of the Securities: The obligations under the Securities constitute direct and unsecured obligations of the Issuer and rank *pari passu* with all other unsecured and unsubordinated obligations of the Issuer. In the case of a resolution (bail-in), the Securities will, within the liability cascade, be considered only after all non-preferred liabilities of the Issuer.

Where will the Securities be traded?

No application for the Securities to be admitted to trading on a regulated market has been made and no such application is intended. However, application to listing will be made with effect from 18.01.2022 on the following multilateral trading facilities (MTF): Frankfurt Stock Exchange (Open Market)

What are the key risks that are specific to the Securities?

The specific risk factors related to the Securities, which in the view of the Issuer are material, are described below:

Risk related to the rank and characteristic of the Securities in the case of a failure of the Issuer: The Security Holders bear the risk of the insolvency of the Issuer. Moreover, Security Holders may become subject to resolution measures in relation to the Issuer if the Issuer is failing or likely to fail.

Specific Risks related to the payment profile of the Securities: There is the particular risk that the price of the Underlying falls and consequently the Security Holder will suffer a significant loss of his invested capital. A total loss is possible. Falling prices of the Underlying will have a negative impact on the Security Holder, especially if a Barrier Event occurs.

Risks arising from the Terms and Conditions of the Securities: The Security Holders bear a risk of loss if the Securities are terminated by the Issuer. The Securities will then be redeemed at their fair market value of the Securities. This may be lower than the amount that the Security Holder would have received if there had been no extraordinary termination of the Securities. In addition, Security Holders bear a reinvestment risk. Moreover, the Security Holders bear a risk of loss if an adjustment of the Terms and Conditions is made or if a market disruption occurs.

Risks related to the investment in, the holding and selling of the Securities: The Security Holders bear the risk that the market price of the Securities may be subject to severe fluctuations during the term of Securities and that the Security Holder is not able to purchase or to sell the Securities at a specific time or for a specific price.

Risks related to Indices as Underlying: The Securities are associated with risks for Security Holders similar to those of direct investments in a comparable portfolio of the assets underlying the relevant Index. Changes in the value of the Index Components consequently directly affect the price of the Index.

³ Pomer základného kapitálu k súčtu hodnôt expozícií všetkých aktív a podsúvahových položiek. Aké sú kľúčové riziká špecifické pre Emitenta?

Riziká vzťahujúce sa na finančnú situáciu Emitenta: Riziko, že skupina HVB Group nebude schopná plniť svoje platobné záväzky v riadnych termínoch splatnosti alebo v plnej výške alebo získať dostatočnú likviditu, ak sa to bude požadovať alebo likvidita bude k dispozícii iba s vyššími úrokovými sadzbami a riziko že banka bude môcť speňažiť majetok na trhu za zníženú sumu môže spôsobiť problém likvidity pre skupinu HVB a navyše môže vyústiť do obmedzenej schopnosti financovania jej činnosti a splniť požiadavky minimálnej likvidity.

Riziká vzťahujúce sa na povahu podnikania Emitenta: Riziká vznikajúce z bežných obchodných činností skupiny HVB, ktoré zahŕňajú kreditné riziko v úverovej činnosti, trhové riziko z obchodnej činnosti ako aj riziká z ďalších obchodných činností, akými sú činnosti v oblasti nehnuteľností skupiny HVB môžu mať nepriaznivý vplyv na prevádzkové výsledky skupiny HVB, jej aktíva a jej finančnú situáciu.

Všeobecné riziká súvisiace s obchodnými činnosťami Emitenta: Riziká vyplývajúce z neprimeraných alebo zlyhaných interných procesov, systémov a ľudí alebo z externých udalostí, riziká spôsobené nepriaznivými reakciami zainteresovaných strán v dôsledku ich pozmeneného vnímania bariziká z neočakávaných nepriaznivých zmien v budúcich výnosoch banky, ako aj riziká spojené s koncentráciou rizikových a / alebo výnosových pozícií by mohli mať za následok finančné straty, zníženie ratingu banky a zvýšenie obchodného rizika skupiny HVB.

Právne a regulačné riziko: Zmeny regulačného a zákonného prostredia HVB by mohli viesť k vyšším kapitálovým nákladom a zvýšeniu nákladov na implementáciu regulačných požiadaviek. V prípade nedodržania regulačných požiadaviek, (daňových) zákonov, právnych predpisov, zákonných ustanovení, dohôd, záväzných postupov a etických štandardov by mohlo byť negatívne ovplyvnené vnímanie zo strany verejnosti skupiny HVB ako aj jej príjmy a finančná situácia.

Strategické a makroekonomické riziká: Riziká vyplývajúce z toho, že manažment nedostatočne včas rozpozna alebo nesprávne vyhodnotí významný vývoj alebo trendy v prostredí banky a riziká vyplývajúce z negatívneho hospodárskeho vývoja v Nemecku a na medzinárodných finančných a kapitálových trhoch, by mohli mať negatívny vplyv na aktíva, pasíva, finančnú pozíciu a zisk alebo stratu skupiny HVB. Dá sa očakávať, že globálne rozšírenie koronavírusu bude ťažiť globálny hospodársky rast v prvej polovici roka. Je tiež možné, že záťaž bude trvať dlhšie v závislosti od priebehu pandémie.

Aké sú kľúčové riziká špecifické pre Cenné papiere?

Špecifické rizikové faktory spojené s Cennými papiermi, ktoré sú podľa Emitenta kľúčovými, sú uvedené nižšie:

Riziko spojené s postavením a charakteristikou Cenných papierov v prípade zlyhania Emitenta: Držiteľia cenných papierov nesú riziko platobnej neschopnosti Emitenta. Držiteľia cenných papierov môžu navyše podliehať záchranným opatreniam vo vzťahu k Emitentovi, ak Emitent zlyhá alebo je pravdepodobné, že zlyhá.

Špecifické riziká súvisiace s platobným profilom Cenných papierov: Existuje konkrétne riziko, že cena Podkladového aktíva klesne, a následne Držiteľ cenných papierov utrpí významnú stratu svojho investovaného kapitálu. Celková strata je možná. Klesajúce ceny Podkladového aktíva budú mať negatívny vplyv na Držiteľa cenných papierov, najmä ak dôjde k Prípady dosiahnutia bariéry.

Riziká vyplývajúce z podmienok Cenných papierov: Držiteľia cenných papierov znášajú riziko straty, ak Emitent zruší Cenné papiere. Cenné papiere sa potom spätne odkúpia za ich reálnu trhovú hodnotu. Táto môže byť nižšia ako suma, ktorú by Držiteľ cenných papierov získal, keby nedošlo k mimoriadnemu zrušeniu Cenných papierov. Držiteľia cenných papierov okrem toho nesú riziko reinvestovania. Držiteľia cenných papierov navyše nesú riziko straty, ak dôjde k úprave podmienok alebo ak dôjde k narušeniu trhu.

Riziká spojené s investovaním, držbou a predajom Cenných papierov: Držiteľia cenných papierov nesú riziko, že trhovú cenu Cenných papierov môže počas doby platnosti Cenných papierov podliehať výrazným výkyvom a že Držiteľ cenných papierov nie je schopný kúpy alebo predaja Cenných papierov v konkrétnom čase alebo za konkrétnu cenu.

Riziká spojené s indexmi ako Podkladovým aktívom: Cenné papiere sú spojené s podobnými rizikami pre Držiteľov cenných papierov ako v prípade priamej investície do porovnateľného portfólia aktív tvoriacich podklad príslušného Indexu. Zmeny v hodnote Súčastí Indexu majú priamy vplyv na cenu Indexu.
